

## ARE YOU AWARE OF THE BEAR?

We're Bringing Back Iconic TPA Services to California's Small to Mid-Sized Employers.

## Republic Capital's Bear Essentials

### CALIFORNIA SPECIALISTS

We don't serve a large national client base. We focus solely on California businesses, and we know the ins-and-outs of California jurisdiction, rules and regulations.

### EXPERT CLAIMS EXAMINERS

We only employ the most qualified, experienced and motivated adjusters, providing them with the ongoing training, tools, AND TIME to do their job in the most professional, personal and proactive way.

### CUSTOM PROGRAMS AND SUPPORT

We don't try to squeeze you into a one-size-fits-all solution. Every company is unique, so we design your workers' comp program to fit your specific business needs.

### SUCCESSFUL CLAIMS MANAGEMENT

Our examiners are diligent in mitigating unnecessary costs and identifying claims abuse, while making sure your employees receive the quality services they need.

### WE PUT YOU BACK IN CONTROL!

With transparent and concise reporting we show you where and how your money is being spent AND recommend ways your program can be even more cost and resource efficient.

# Your California Workers' Compensation Specialists.

You need more than just a claims processor . . . you need a true ally in proactively managing claims by mitigating your workers' compensation program costs, providing appropriate care, controlling claim abuse and litigation, and making it easier to understand and navigate the complex world of workers' compensation.

You'll find all these advantages and more with Republic Capital. Each member of our leadership team has 20-plus years in the industry. We've seen how the industry has changed in recent years, what it's now missing, and we've developed total program management for better claims service and outcomes.

Our goal is to save you time, money and stress . . . to be your partner in navigating and understanding this complex world of California's workers' compensation.

**We are uniquely motivated and experienced to provide you with the premier services you need to achieve optimal claims outcomes.**

## TOTAL PROGRAM MANAGEMENT

**We provide a full suite of services for total workers' compensation program administration.**

Republic Capital Claims Administrators, Inc., (RCCA) provides the services and resources required for the complete administration of your workers' compensation program.

Our strategic approach and proactive claims methodologies drive improved outcomes and program success — while offering you unique resources and the flexibility to meet your specific risk management needs.

## CLAIMS MANAGEMENT

**With decades of experience, we understand the workers' compensation environment in California.**

Our qualified executive team, highly trained claims experts, Claims Management Best Practices, and state-of-the-art technology have been diligently designed to achieve the best possible claim outcomes. RCCA's Claims Management Best Practices are established to mitigate costs at every level of the claim process. Our proactive approach begins with the first report of injury and continues through settlement and closure.

## CLIENT SERVICES

**Our commitment to partnership and proactive program management drives performance.**

Through our Client Services department and your designated Client Services Specialist, you receive the responsive and regular communication needed to deliver the highest level of account management.

RCCA creates tailor-made services to fit the workflows of your organization. Our mission is to provide the services necessary to meet your risk management needs by offering regular claims reviews and total loss and cost analyses.
